Re: Hazardous Waste Compliance Inspection - PEPL - OLPE, 985 Road 90, Lyon County,
Olpe, EPA I.D.: KSD 984 972 737

Dear Mr. Estonpinal:

I received your letter dated December 19, 2001, documenting the actions taken to correct the violations noted on the Notice of Non-Compliance (NON-C) issued at the close of hazardous waste compliance inspection conducted at the referenced facility on November 26, 2001. Based upon the information in your letter violation 10 is considered corrected. Violations 4, 5, 6, 7, 8, 9, and 11 are also considered corrected based upon the fact that the facility properly renotified as a Kansas Generator. Also based on the information in your letter, the following violations remain outstanding.

Violation 1 - K.A.R. 28-31-4(e)(4) - Failure to have placards - To correct this violation, you must provide written notification to this department no later than May 3, 2002, that the applicable placards are available on-site.

Violation 2 - K.A.R. 28-31-4(d) - Failure to use correct generator name and/or address on nine manifests - This department requires that the generator name and address reflected on hazardous waste manifests be that of the generating facility. To correct this violation, you must provide written notification to this department no later than May 3, 2002, of the actions that will be taken by your company to ensure that the required generator name and address are reflected on all hazardous waste manifests utilized in the future.
